

For you to use the word "limits" in the title of your press release regarding the decision to deregulate and allow less, not MORE, owners, is absolutely brilliant manipulation of the public's viewpoint by this unbelievably arrogant Bush administration!! Some of us DO see what is happening..thank God this is up for review in two years!! I see Nixon-like analysis of the American public and no matter what, the values this wonderful country were founded upon will prevail--NOT this administration!!
